# Introduction

Dear Customers,

We herewith announce the release of Software Update Packet (SUP) 1.44 for the Active Motor Controller AMC-1. This SUP is adds the following new features and changes:

- cforce plus support
- UDM-1 support via LCUBE CUB-1
- Improved system stability

## Update information

We highly recommend updating the AMC-1 to this software update package.

## 1. New Features and Changes

### cforce plus support

The AMC-1 now supports the new cforce plus motors.

### UDM-1 support via LCUBE CUB-1

It is now possible to connect a UDM-1 to the AMC-1 via the LCUBE CUB-1. The UDM-1 distance readout will be displayed on the screen of the WCU-4 handset. The distance readout unit (metric/imperial) can be set in the AMC-1 menu.

## 2. Bug fixes

### Soft buttons not matching screen

Fixes a bug where the soft buttons would not match the actual screen.

### System reboot with several files on microSD card

Fixes a bug where the AMC-1 would crash and reboot if a microSD card with multiple files on it is accessed.

### "no file on card" popup

Fixes a bug where a "no file on card" popup would appear in the process of selecting an update file from microSD card, even if a file is present.

### 3. Updating Instructions

#### How to get a Software Update Package

Go to the ARRI website: [www.arri.com/ecs/AMC-1](http://www.arri.com/ecs/AMC-1)

Select the Downloads section and copy the newest software update package to your computer.

#### AMC-1 Update Procedure

##### Precautions

Make sure the power supply of the AMC-1 is stable. The best way to achieve this is by using a fully charged battery.

##### Preparing the SD Card

Have a FAT16 or FAT32 formatted SD-Card ready. SD and SDHC cards up to 32GB are supported.

##### Performing the Update

1. Go to the download area at [www.arri.de/ecs/amc-1](http://www.arri.de/ecs/amc-1).
2. Download the zip file containing amc-1.upd.
3. Unzip the file.
4. Copy AMC-1.upd to ARRI/AMC1/Firmware/ on Micro SD card.
5. Insert the Micro SD card in the Micro SD card slot of the AMC-1.
6. Select MENU > FIRMWARE. Select update file. Update information appears.
7. Press both UPDATE keys simultaneously to start the update.
8. The AMC-1 will reboot and update radio module.
9. The update is completed when update information disappears.

#### **Caution: Do not remove the SD card while the packet is being copied to the AMC-1!**

The update process takes about 5 seconds. The AMC-1 will re-start, and the update process is completed.
